EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frederick J. Dorchak on 9/1/04.

Claims 28-40 have been cancelled.

Applicants reserve the right to file a divisional application to the cancelled/non-elected subject matter.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants' arguments/remarks and Affidavit (EP 1161406 B1), submitted 6/29/04, were found convincing to overcome the 35 USC 112, first paragraph rejection issued in the office action dated 4/7/04. Additionally, applicants' method for producing 1,2-dichloroethane or ethylene dichloride is unobvious over the prior art of record because the prior art of record does not teach or suggest producing 1,2-dichloroethane or ethylene dichloride, wherein ethylene is introduced into the circulating reaction medium at a point upstream, after passing the ethylene through a mixing and dissolving zone, followed by completely dissolving the ethylene in the reaction medium stream while dissolving the chlorine in a cooled part stream of the reaction medium before introducing the chlorine to the main stream of the reaction medium. Such a modification allows for a more efficient

distribution of heat generated from the exothermic reaction, which results in a softer reaction process that reduces by-product formation. All claims (24-27, 41 and 42) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
